AUTOID UTouch 2

Industrial-grade UHF RFID
handheld terminal

RFID has excellent performance and can easily meet the needs of multi-scenario applications

The unique anti-collision algorithm has a maximum group read recognition speed of 1300 sheets/second, and the recognition distance is 0-20m

1

Convenient parameter setting
One-click switching of long-distance, multi-label reading, multi-label fully reading and other recognition modes

2

Support temperature, LED, UPC and other special label reading

3

Unique object finding algorithm, Find specific items with precision

4

More technology and design for efficient operation

The new platform, the strong octa-core performance fully releases

the Qualcomm octa-core 2.0GHz/Android11, and multiple applications can run smoothly

Wi-Fi 6 escort, fast transmission and longer coverage

up to 1.2Gbps, 39% higher than Wi-Fi 5, 2-3 times higher network capacity utilization, multi-application concurrent data queue-free, enhanced roaming, performance up to 70%, packet loss rate as low as 1-2%

Dual battery capacity, say goodbye to battery life troubles

host 5000mAh + handle 6700mAh dual battery design, help long-term battery life

Ultra-high protection, no fear of harsh environments

using IP67 dustproof and waterproof + 2 meters ultra-high drop protection

Application scenarios

Retail | RetailStore Management/Warehouse Management

Manufacturing | Assets/Warehousing/Tools

Logistics | Eco-friendly bags/warehousing/points

Public Utilities | Aviation/Medical/Finance/Electricity
